

ADDENDUM TO BUS100-01 SYLLABUS: Student Learning Agreement Professor Polk

By way of this agreement and signing this agreement, I, _____), (**PLEASE PRINT YOUR NAME HERE**) acknowledge and agree to the following:

COURSE STRUCTURE: It is my responsibility to understand the course outline, Student Learning Objectives, assignments, tests, and other course materials that are included in the course Syllabus, on CANVAS (CN), and in the material covered in class OR during the course week. I acknowledge that course requirements and material may change from time to time, and it is my responsibility to keep abreast and up to date on course requirements and activities.

We are back to traditional (ground) class meetings. However, this applies to all live meetings with professors, such as office and Weekly Communication meetings.

COURSE DELIVERY: I will actively participate in class activities which will include a review of textbook materials and concepts, knowledge assessments, and working individually and in groups on problems. I understand that this course will be delivered to students in a traditional lecture-note-taking format.

CLASS PREPAREDNESS: I understand that I am expected to read chapter assignments, review PowerPoint presentations, and answer assigned problems prior to the subject matter being discussed in class or during the course week. It will be my responsibility to ask questions on material that is not clear to me and to work individually and in groups on assigned problems.

TEAM PARTICIPATION: I understand that I will be assigned to a team of student peers, and I agree to actively participate in group discussions, group problem-solving, and assessing the contribution of my group members to my learning experience. I also understand that my group members will be assessing my contribution to their learning experience. If I do not participate my teammate can vote me off the team.

GRADING: I agree that it is my responsibility to understand the course grading system to keep up to date on my performance in the course, and to be proactive in addressing issues and problems that could result in me not passing the course, as early as possible, and to not leave performance issues to be addressed in the last few weeks or days of the semester.

STUDENT SUCCESS AGREEMENT SUMMARY:

I understand that passing AND succeeding in this course:

_____ (**insert course name and number here... PLEASE PRINT**)

I am expected to manage my time effectively. Effective time management means reading the textbooks (and articles, if assigned), completing case studies, plus other assignments, and Discussion Board BEFORE each due date. I also MUST actively participate with my teammates for the timely completion of the Team Project. Furthermore, I understand that the university standard for course workload is THREE hours of outside work for every unit, i.e., a 3-unit course requires one (1) hour per unit or three (3) hours total, plus nine (9) hours of work per week OUTSIDE of class for a total of 12 hours per week.

Finally, the professor wants you to succeed. Transparent and honest communication is required to give yourself the best chance for success. Grades are earned, not given. The professor expects your BEST EFFORT with every submitted assignment. You control your success (or failure) by using effective time management techniques, such as...*start early and submit assignments early!*
